QU'APPELLE PROGRESS.

Thursday, April 18, 1895.

PLATINUM MINES.

These of Similkameen Contain the Largest Deposit in the World.

The geology of a country's mineral wealth is generally measured by its production of the two precious metals, gold and silver. Not alone in the output of these two must British Columbia be considered, as others equally valuable, although not so extensive, are to be found within her territory. Among these other metals platinum holds perhaps first place, and British Columbia for her production of the same has only one superior rival, viz., Russia. Prior to the discovery of the metal in this province Russia had no formidable competitor, and therefore ruled, or rather dictated the price to be paid for the same in the world's market. But of so great economic importance was its discovery in British Columbia that it had the effect of not only disturbing the base of supply, but also of reducing the metal's intrinsic value. In the past two or three years there has, however, been an upward tendency in the range of value, owing to various reasons, the first of which may be considered the demand for the metal, which constantly exceeds the meagre supply, and also the fact that although it is known to exist in great abundance on the Similkameen, yet the companies owning the placer grounds have not in the past been working the same to any great extent, and, in fact are only now about to assume active operations. With this end in view, the Tulameen Improvement and Hydraulic Company, on March 12th last increased the amount of their capital stock to 500,000 shares. Among those composing the company may be found the names of many prominent British Columbians and eastern men, notably H. Abbott, of the C. P. R.; C. R. Hoiner, the Laidlaw estate, J. Wilson, A. Ewen, E. Mahon, B. Douglas, J. C. Armstrong, Capt. R. G. Tatlow, D. Lockyer and others. Benj. Douglas, of New Westminster, is president of the company. Active operations will be carried on this summer, and work will be prosecuted under vigorous management. The water which will be utilized will be taken out of Eagle creek. Many interesting facts are relative to the discovery of platinum on the Similkameen, some of which would show that at first the miners who were working the placers there considered it to be nothing more than white iron, and of no value. In fact, it was by them looked upon as a nuisance, interfering, as it did, with the operation of washing for gold, as by its specific gravity, it accumulated in the sluice boxes, and being in close juxtaposition with the gold, at the ratio of about 2 to 1 ounces of platinum to 1 of gold—it will be readily understood what a trouble it was to separate the two, and especially were the miners aggrieved, who after separating the pesky stuff, as they called it, the same had to be thrown away, and thrown away it was, until such time as its true value became known. One of the peculiarities of the metal is, that it never found in paying quantities except in placer ground, no lodes containing it ever having been discovered, other than the small quantity found, and not worth extracting in the nickle ores at Sudbury. Prof. Dawson in giving his opinion as to its origin on the Similkameen, considers the Diabite belt which crosses the river just below the mouth of False Creek, and has been cut through by it, to be the matrix of the platinum; and the appearance of the metal would tend to prove this theory, as it is always of a very rough nature, showing that disintegration has taken place close at hand.

BURIED IN THE RUINS.

Five Story Building Collapses Killing Several People.

The other morning shortly after two o'clock the five story building of Chapman and Sons on Main street, Wheeling, W. Va., in the wholesale district and the adjoining four story hardware building of F. T. Hutchinson fell suddenly without warning and buried several persons in the ruins. "Dad" Williams, a carpenter escaped with serious injuries but T. T. Hutchinson, the veteran merchant and the following employees of the establishment were entombed: J. A. Ford, P. J. Horn, Eugene Burch, Bob Winches, A. Western Union messenger boy, Harry Cowl, was caught in the alley and buried. Hutchinson was taken out with two ribs broken and other injuries and cannot live. At 10 o'clock the only other body recovered was that of Ford, whose injuries are not definitely known. The Hutchinson building was of light construction and was declared unsafe years ago. The fire department did effective work in keeping down the flames while volunteers went to the rescue of the victims of the disaster. At 10:25 Michael Ford was taken from the ruins also alive but fatally hurt. He had been pinned beneath an iron girder and the dead body of young Haran lay across him. It is now known that the Rev. Father H. F. Parks, vicar general of this Catholic diocese is under the ruins. He was on the way to the cathedral from the train when the walls fell.

How They Do It.

The Chicago Post prints a sensational story regarding the disappearance of \$500,000 of the Democratic campaign fund. It states that the managers of the recent city campaign, in which Winter was Democratic nominee and was defeated, charge the defeat to the lack of necessary funds. It is also charged that an enormous sum has been appropriated by five or six men in Democratic political circles of the city. The fund, the Post says, was raised by assessment of the city hall employees and others, and amounted to about \$500,000. The Winter managers claim to have positive proof that the fund existed prior to the last election and say they were unable to get any of it for campaign purposes. Reputable men of the Democratic party are said to have become so thoroughly aroused over the affair that they will endeavor to secure an investigation which promises startling developments.

Towser Convicted Them.

Jesus Malifando and Felix Chavez were found guilty of murder in the first degree. Last January they shot Thomas Martinez, a stockman, and burned the body. They confessed, admitting that Martinez had caught them stealing cattle. After kill-

ing him, Malifando shot the dog and left him for dead, but the next day the animal returned home bleeding and appealed by whining to the murdered man's brother. The dog led his follower to the scene of the tragedy and began barking and scraping the ashes with its paws and here the charred remains were found. One witness, Angel, who visited the ash heap two days after the murder, testified that he saw distinctly the outlines of the murdered man's form lying in the ashes. The form seemed perfectly distinct and in bold relief.

GIGANTIC SWINDLERS.

Chicago Detectives Have Unearthed a Far Reaching Scheme.

The United States' secret service operators in Chicago and Washington have unearthed probably the most unique and at the same time the most important swindle ever perpetrated on the government. Its magnitude, after two days investigation can only be guessed at, but it is believed thousands upon thousands of dollars have been secured by a gang of skilled counterfeiters, who have reproduced with wonderful skill and accuracy, the pink 2 cent stamp. It is thought the country is flooded from New York to San Francisco, with these spurious stamps and the United States have been carrying millions of letters from which not one cent of revenue has been received. Chicago, apparently has been the headquarters of the gang, and the product has been shipped to distributing agents through the express companies. Just exactly how the information reached the government officials is not known, but they evidently got a straight tip, for Captain Stuart, of the postal inspector's department, and Captain Porter, of the United States secret service bureau, called at the Wells Fargo office and were taken to the store room. There they found an oblong package, looking like a big roll of music. It contained 10,000 of these counterfeit stamps.

HYPNOTISM A GOOD POINT.

The U. S. Supreme Court Admits it for Defence or Conviction.

The supreme court of Kansas rendered a decision in which hypnotism is recognized both as a defence and ground for conviction of crime. The case passed upon came up from the Cowley county district court. On May 5th last, Thos. McDonald, without apparent provocation, shot and killed Thomas Patton, near his home in Winfield. He was arrested, charged with murder, and set up a defence that he was under the power of hypnotic influence of Anderson Gray, and was neither legally nor morally responsible for the deed. He was acquitted and Gray was put under arrest, and tried for murder. He was found guilty of murder in the first degree, notwithstanding the fact that he was not present when the crime was committed, the evidence for the state going to show that he caused McDonald to do the deed through hypnotic influence. An appeal was taken to the Supreme court and in an opinion rendered recently, the ruling of the lower court was maintained.

A DISLODGED BOULDER.

Causes a Boston and Maine Engine to go Down an Embankment.

The Boston and Maine's south going train from Sherbrooke, Que., left there on time the other night. When just within half a mile north of Smith's Mills station, at a spot known as "The Cut," the engine struck something which immediately threw it off the rails and down the embankment. The baggage car attached to the engine was left on the track. Engineer Roney and Fireman Emerson went down with the engine and were removed from it both dead. Investigation proved that an obstruction which had caused the accident was a large boulder which had been dislodged by the train. The train was an unusually heavy one, having a large number of passengers and extra coaches from the lines of the Grand Trunk and Quebec Central railways. The passengers experienced only a vigorous shock.

CHOLERA BREAKS OUT.

Japanese Soldiers Stricken With the Dread Disease.

The London Times to-day publishes a dispatch from Kobe saying that it is reported there that cholera has broken out among the Japanese troops at Pescadore Island. It is estimated that 100 cases of cholera have occurred and of this number one hundred have proved fatal. The correspondent of the Times at Hong Kong says the inhabitants of the island of Formosa are dissatisfied thinking that their exemption from the armistice indicates that they have been deserted by the Pekin authorities and the foreigners on that island believe that the Japanese will be welcomed after a slight resistance. Foreign trade is at a standstill. There is great fear at Canton of an attack by the Japanese. The precautions to prevent a Japanese approach have necessitated suspension of all traffic on the river.

WAS EATEN ALIVE.

A Ferocious Maniac Devours an Iowa Rancher.

C. E. Converse, a wealthy ranchman living near Jefferson, a small town in the vicinity of Sioux City, Ia., met a horrible death the other night at the hands of a maniac, who imagined himself to be a vampire, and attacking his victim literally devoured him alive. The lunatic met Converse as he returned home from town late at night. He instantly set upon him, dragged him to the ground and tore him to pieces with his teeth and nails, nothing was known of the affair till the next morning, when the man appeared at Jefferson covered with blood, and began to boast of his exploit. The lunatic is supposed to have escaped from an asylum.

THREE MEN SHOT DOWN.

A Colored Deputy Sheriff Mortally Wounded Two Fighters.

A desperate shooting affray occurred at San Jacinto, Cal., the other night at a saloon. Three men were shot, two of them are mortally wounded. Charley Marshall and Bowers. Frank Hamilton, a colored deputy sheriff of Calhoun, did the shooting. Albert Larson, an innocent party, happened to pass at the moment and received a bullet from Marshall's revolver; it entered his back, passed through the naval and grazed his wrist. He will die.

DOWN ON THE H. B. R.

The Directors of the C. P. R. Protest Against Aid to Construction.

A dispatch from Montreal to the Toronto World says it is understood that the directors of the Canadian Pacific railway have passed a resolution in the shape of a protest against the government of Canada giving the bonus proposed and already ratified by the privy council to the Hudson's Bay railway project. They contend that the line, if ever built, will divert traffic from them and that nearly two hundred miles of the road will parallel their road West of Winnipeg, and that the road is not required. They also stated that if the Hudson's Bay road is aided the C. P. R. will ask for an additional allowance on account of transportation of mails to different parts of the country.

SLANDERING CLEVELAND.

A New England Preacher Accuses the President of Drunkenness.

There is great indignation expressed amongst Democrats over the attack made upon President Cleveland at the New England Methodist conference by Rev. Dr. Landing, who charged him with drunkenness at the chamber of commerce dinner, and denunciation of the clerical "villager" are heard on every hand. Chauncey Dewey said: "There is only one reply that can be made to such a story—it is absolutely contemptible and absurd. I sat near him at the dinner, and saw he was absolutely sober."

A Mother's Way.

When the Rev. Horace Bushnell was a boy, he was very desirous of knowing something about music. No one in the family could teach him, however, and his mother, with that divine patience and insight which belong to mothers in general, found that if the lad was to have his wish at all it must be through her. She obtained a book and soon taught him all she knew—the scale, the keynote and how to find it, and the time of the notes.

This was only "book learning," however, and the question was to adapt it to the use of the voice. Little Horace wanted to sing by note, and that his mother could not teach him. She could sing by ear, however, and the two hit upon a species of reverse process. The mother sang familiar tunes, and the boy watched the notes, observing how the intervals and time ran along, and, as no expressed it, "soon began almost to sing with us."

And from singing airs they knew into notes that bore no meaning they finally learned to sing airs they did not know out of similar notation. The method had been unlocked, and further progress was easy. The mother's heart had found out the way.—Youth's Companion.

A City of Roof Gardens.

The majority of the houses in Buenos Ayres have but one story, whose flat roof serves all the purposes of Yankee lawns and door yards. While the patios are frequently utilized as dining and sitting rooms, it is the universal custom to promenade in the cool of the day on the housetops, to sit there at morning and evening enjoying the refreshing breezes, extensive views and varied panorama in the street below. The children find their favorite playground on the roof. There the nurses bring their infant charges, the seamstress her sewing and the maid her mistress' bedraggled finery to put in order again. The clothes are dried and aired and ironed atop, and during the "heated term" of this dewless latitude thousands bring up their beds and sleep with starry sky for a counterpane.—Philadelphia Record.

Too Sweeping.

After his return from his first lecturing tour in this country, the late Matthew Arnold visited old Mrs. Proctor, the widow of the poet, "Barry Cornwall," and mother of Adelaide Proctor. Mrs. Proctor, who was then 80 years old, in giving Mr. Arnold a cup of tea asked him:

"And what did they say about you in America?"

"Well," replied the literary autocrat, "they said I was conceited, and they added that my clothes did not fit me."

"Well, now," retorted the old lady, "I think they were mistaken about the clothes."—New York Mail and Express.

Chattel Mortgages.

A man who gives a chattel mortgage should always examine it carefully to make sure it is not "on demand." Sharp money lenders who loan funds on chattel mortgages often try to have this clause inserted, and when it is the borrower may expect to part with his chattels at almost any moment. It is a trick by which advantage is often taken of the unwary.—St. Louis Globe-Democrat.

Bound to Have a Nap.

Conductor (giving him a shake)—Tickets!

Sleeping Suburbanite (pushing his hand away)—No, you don't, Marial! If you want that baby walked with, you can walk with him yourself. I'm going to get some sleep tonight, by jocks, if I miss 50 trains!—Chicago Tribune.

A PECULIAR CASE.

COVERED WITH PIMPLES—AN ANXIOUS MAN.

The Disease Disappears in Three Weeks by the Use of B. B. B.—Letter From Manitoba Fully Describing It.

DEAR SIR,—During the winter of 1892-93, I was covered with Pimples on the inside of my right leg between the knee and the ankle. As I never had anything of the kind before, I was anxious about it, and sought medical advice, but getting no relief from the doctor I tried a bottle of B. B. B., applying some of it to my leg as well as using it internally, and to my surprise, the nasty disease, whatever it was, disappeared within three weeks, and I am thankful to say that it has never re-appeared.

A YOUNG LAD AND

HIS FAITHFUL FRIEND.

Ernest McGregor, of Whitby, Ont., Gives an Account of His Experience—Cured of Persistent Dyspepsia by R. B. B.—Worst Kind of Dyspepsia.

GENTLEMEN,—I write to inform you that for years I have been troubled with Dyspepsia, and having tried other medicines which entirely failed, I at last found relief and cure in Enderlock Blood Bitters, of which I took two bottles, the result being a perfect cure. Although only a young lad I had been troubled with dyspepsia for four or five years, but I can say now that B. B. B. does its work faithfully in the worst kind of dyspepsia, and has proved itself the only cure for me.

THE SECRET

Of the marvelous success of Burdock Blood Bitters lies in its specific curative power over every organ of the body. The Liver, the Blood, the Bowels, the Stomach, the Kidneys, the Skin, the Bladder, in fact, all parts of the human system are regulated, purified, and restored to perfect natural action by this medicine. Thus it CURES all diseases affecting these or other parts of the system, Dyspepsia, Constipation, Bad Blood, Biliousness, Headache, Kidney and Liver Complaint, Obsolete Humors, Old Sores, Scrofula, Rheumatism, Nervous or General Debility, and all irregularities of the system, caused by Bad Blood or disordered action of the Stomach, Bowels, Liver or Kidneys. Thousands of testimonials warrant the assertion that B.B.B. is the BEST SPRING MEDICINE FOR YOUNG OR OLD.

NORTHWEST RESOURCES.

THE TERRITORIAL EXHIBITION.

Description of the Buildings With Cuts of Them—Prospects of an Excellent Fair.

The practical work performed by the Hon. C. H. Mackintosh, Lieutenant-Governor of the Northwest Territories, since assuming the responsibilities of his office, will be crystallized into one great object lesson by the first general exhibition ever held in the Territories. It will

tenant-Governor Mackintosh in order to keep thoroughly informed upon the intentions of the people, early in the year appointed every postmaster (aggregating 200) an advisor as to the probabilities in his particular district, the consequence being that monthly reports received placed him in a position to form a fairly approximate idea of the productive capacity of each postal district, the questions answered enabling him to procure the names and character of the products peculiar to that section. Added to this, all the agricultural societies, about 40 in number, were communicated with month after month, and he was assured of the warm and earnest co-operation of all of them, with the exception of two.

make substantial progress, the farmers must, to some extent, abandon what might be termed, "gambling in grain" and turn their attention to other branches of farming. He also holds that the one panacea for freight rate grievances will be found in the production of concentrated commodities, and illustrated this by a statement of the following values: a ton of wheat, worth \$20.00; a ton of butter \$20.00; a ton of bacon, \$20.00; a ton of poultry, \$17.50; and a ton of cheese, \$20.00; showing that it would be preferable that the farmer feed his stock on wheat and thus converted it into a commodity that being transported might ensure for him from 75 to 80 cents a bushel for his wheat. We refer to this, because it em-

phasizes the design of the first Industrial exhibition, and marks an epoch of earnest sympathy with the farmer's pursuits and legitimate encouragement of his efforts to make agriculture a profession instead of mere manual labor. We therefore devote some space in this issue to the subject of the Territorial Exhibition, convinced that it might be reasonably considered a proof of national progress, for it must be remembered that it was only in 1884 that the first grain crop was harvested in the territories, while at the same time the population was very small indeed. The Territorial Exhibition, therefore, should be well sustained by Canadians and visited and inspected by the farmers of the older provinces as well as those of the Western States. In this connection it might be said that arrangements have been made for farmers' excursions from the east

THE WESTERN WORLD.

INTERESTING NEWS NOTES.

Arranged in Brief and Readable Shape for the Information of the Intelligent Reader.

Inspector of Mines Dick reports that a 5 1/2 foot seam of coal was struck in the new shaft at Union, B. C., a few days ago.

The new Vancouver Coal company has got through the fault in its Protection island shaft and has struck a rich vein of coal.

J. H. Simpson, senior member of the firm of Simpson & Simpson, barristers, etc., of Nanaimo, B. C., has been appointed police magistrate of that city.

A fund started by the Victoria, B. C. Colonist for the benefit of the family of Engineer Law who lost his life in the wreck of the Velos has reached \$350.

Large numbers are still rushing to Cariboo. A letter received from a Vancouverite the other day, stated that they would not get to work for a month yet.

In the opinion of Surgeon Walker of the Provincial jail at New Westminster, James Lobb, the man who did the shooting on the Stella, is undoubtedly crazy.

In Nanaimo at present hotels and saloon pay the same license, \$300 per annum. A proposition is now before the authorities to charge the saloons \$400 and hotels \$300.

Navigation on the Columbia was opened the other day. The steamer Columbia made her first trip, connecting with the first train on the Arrow Lake branch of the Columbia & Kootenay railway.

J. Lundy, who used to run a boot store at New Westminster, B. C., and later was the proprietor of a hotel at Chilliwack, has left with his family for Innisfail, Alberta, where he has leased the Innisfail house.

Thos. Demers of Victoria, B. C., has taken out both Canadian and United States patents for a lamp shade that graduates the light and also imparts to it any color desired—green, for example, for the benefit of weak eyes.

Word was brought down to Victoria by the Panthe that there is an inter-bell quarrel among the Indians regarding territorial rights at Nas river. Indian Agent Todd has gone to the scene to try and settle the difficulty.

The imports of Nanaimo, B. C., for March were valued at \$4,660, of which \$14,150 worth were dutiable, paying to customs \$4,474.41. The miscellaneous collections were \$143.27, making a total of \$4,517.68 revenue for the month.

The following is the abstract of collections during March for Inland Revenue Division No. 37, Victoria: Spirits, \$7,348.71; malt, \$1,760.12; tobacco, \$3,540.38; cigars, \$654; metvated spirits, \$66.77; inspected petroleum, \$80.55. Total, \$13,245.94.

Notice is given in the last issue of the B. C. Gazette of the cancellation of the reeve of the lands extending back for one mile on either side of the line of the Nakusp & Slocan railway. These lands will now be thrown open for pre-emption in three months.

The C. P. N. company has a scow in readiness to go to the scene of the wreck of the steamer William Irving, in the Fraser river as soon as the river rises sufficiently to admit of its being taken alongside. It is the intention to try and save the machinery.

Hugh McLean, of McLean Bros., has gone up to look after and operate the firm's claim on the Fraser river at Dog Creek, in Cariboo District, B. C. It is expected that this claim, which extends to 10 miles of the river bank, will produce barrels of gold in the near future.

R. T. Robinson of the Georgia St. nursery, left recently for Kelowna, in Southern Okanagan, B. C., where he will superintend the planting of a young orchard of 17 acres for Thos. Sterling, one of the most progressive and prosperous farmers in that section of the province. Mr. Robinson will be absent at least a couple of months.

W. G. Fraser and J. L. McKay, for themselves and numerous other residents, have given notice that application will be made on May 1st for the incorporation of Wellington, B. C., as a town municipality. The district proposed to be included in the limits of the town comprises some 30 acres, parts of sections 2, 4 and 5 of Wellington district.

The Montreal Hydraulic Gold Mining Company of Cariboo, Ltd., is the somewhat formidable name adopted by a new mining corporation with a capital of \$250,000 that has been formed to take over the mineral properties, claims and business of the Montreal and British Columbia Prospecting and Promoting Co., Ltd., Cariboo being the chief field of operations. The head offices of the new company are to be at Vancouver, and the provisional trustees are P. A. Paterson and John Kennedy, of Montreal, and F. C. Innes, J. M. Browning and S. O. Richards, of Vancouver.

The survey of the area to be included in the new dyke on the Delta has been completed and the assessment of property is now being made. The cost of building the dyke is estimated at between \$40,000 and \$50,000, and in the course of a few weeks the Delta council will call for tenders for the purchase of debentures of the amount required for this work. As the municipality has not one dollar of debt, it is expected that there will be some sharp bidding. The value of the lands within the boundaries of the municipality is something over \$1,000,000. The debentures are therefore looked upon as gilt-edged and may bring a premium.

The coroner's jury of Victoria, B. C., in the case of Engineer Law, who lost his life in the wreck of the Velos, brought in the following verdict: We, the jury, called to enquire as to the death of William Law, find that he came to his death through exhaustion on board the steamer Velos, which was wrecked at a point on Trial Island, on the night of March 22, 1895, whilst towing the barge Pilot with 21 men aboard, bound for Nelson and Haddington islands. And we strongly recommend that a searching official enquiry be made as to the cause of this accident; and that it is our opinion that such inquiries should be made in all such cases.

CONDITIONS OF PEACE.

Japan Wants a Good Many Things From China, But is Not Selfish.

The London Central News correspondent in Shanghai states the conditions of peace proposed by Japan in addition to the independence of Corea, the war indemnity, and the session of Formosa and Lia O Tung province, including Port Arthur. Japan requires, he says, that China shall allow the unhampered importation of machinery into her territory and the establishing and management of manufactures by foreigners. She must pledge herself, moreover, to open to the vessels of all nations the Yang Tse river as far as Chang King Foo, the Sing Kiang as far as Siang Tan Kien, the Canton river as far as Ouchoofoo, the Wu-sung river, and the canal as far as Soochoo to the north and Hangchow to the south. China must remove permanently the Wusung bar and provide means to maintain constantly a depth of water sufficient for the large vessels, and the cities of Chang King Foo, Ou Choo Foo, Soo Choo Foo, Hang Chu Foo, and others to be hereafter agreed upon must be opened up to foreign commerce. Japan emphasizes the fact that she does not desire for herself commercial advantages that are not extended to the other treaty powers.

OFFICIAL OFFICES AND MAIN GATE.

commence on the 25th of July and close on the 7th of August, when Alberta, Assiniboia and Saskatchewan, the three great provisional districts, will vie with one another in proving the industrial, agricultural and stock-raising capabilities of that wonderful country.

By those conversant with his public utterances at the time of accepting office, it will be remembered that Lieutenant-Governor Mackintosh announced his intention of working day and night towards accomplishing the design of holding a Territorial exhibition, and it was at his earnest solicitation that Sir John Thompson, the late premier, and Hon. I. M. Day, the minister of the Interior, consented to a memorial prepared by him being laid before the privy council. His opinion prevailed; the sum of \$25,000 being voted by parliament towards promoting the object in view. Regina was

Having become conversant through these sources what would be necessary, a prize list for the Territories and Manitoba aggregating about \$15,000 was prepared. He then made a tour through the principal points of the Territories, met the agricultural societies, submitted the prize list and received suggestions, in the majority of cases acting upon these. Mr. Angus McKay, superintendent of the Indian Head Experimental Farm recently finished a tour of the south-eastern portion of the Territories, reporting a feeling of great interest throughout.

The buildings, the prospective exhibits and the prize list, having been dealt with, the next question arising was that of transporting the exhibits and cheap rates for the travelling public. Both Mr. Van Horne, and Mr. Shaughnessy, president and vice-president of the Canadian Pacific railway have manifest-

phasized the design of the first Industrial exhibition, and marks an epoch of earnest sympathy with the farmer's pursuits and legitimate encouragement of his efforts to make agriculture a profession instead of mere manual labor.

We therefore devote some space in this issue to the subject of the Territorial Exhibition, convinced that it might be reasonably considered a proof of national progress, for it must be remembered that it was only in 1884 that the first grain crop was harvested in the territories, while at the same time the population was very small indeed. The Territorial Exhibition, therefore, should be well sustained by Canadians and visited and inspected by the farmers of the older provinces as well as those of the Western States. In this connection it might be said that arrangements have been made for farmers' excursions from the east

FREE ADD FOR THE FAIR.

The Monster Described Below Will be on View at Atlanta.

Messrs. Enhenza, Iallies and Whitney, of St. Augustine, Florida, had a fight with a monster from the other day. They were on the North river in a boat fishing, when Enhenza's hook was seized by the drum. In half a minute after the fish had struck the men realized that it was a monster and that their lives were in peril. The great fish headed straight for the bar and carried the boat through the water at a terrific pace. Every moment the men feared that the craft would be swamped. They tugged at the line tied around Enhenza's waist in a vain effort to control the captive. The frail boat skimmed along, her bows out of water, in the channel between the Crazy banks on which immense breakers roll, and Anastasia Island, headed straight for the deep sea. Just before the bar was reached the great fish swerved to the breakers, seized the boat and threw the men into the sea. Enhenza was still on the line, and the fish pulled the man half-drowned through the water and headed for the half-submerged wreck of an old schooner that lies a little south of Bird Island. Enhenza was dragged against the derelict with terrific force and partially stunned. Fortunately the stout line caught on the wreck and the fish was brought up with a round turn. Sullies and Whitney in the meantime had swam ashore with the boat which they had righted and hastened to Enhenza's rescue. They found him nearly dead, but he had the fish that had by this time become exhausted. The line

THE MAIN BUILDING.

selected as the place at which the exhibition should be held consequent upon being the capital of the Territories. The plan at once responded by voting \$10,000 towards the cost of erection of buildings. The Territorial Assembly also set apart a substantial amount by way of assistance and having provided the revenue, Lieutenant-Governor Mackintosh, at once proceeded to have plans and specifications prepared and contracts let for the main, dairy and poultry buildings and the official offices, and the illustrations that we publish herewith prove that nothing will be left undone to furnish the exhibitors with every possible accommodation.

The official offices and main gate will be not only substantial but picturesque. In the building the advisory board will sit during the exhibition, receiving reports, leading disputed questions, con-

ed much interest in the proposed exhibition the consequence being that the railway's policy was very generous indeed. Lately the Lieutenant-Governor conferred with Mr. William Whyte the western superintendent and Mr. Robert Kerr the general freight and passenger agent, and a scale of rates was agreed upon, all bona fide exhibits being gratuitously transported and passenger rates reduced to less than one third, and in some cases to less than one-fourth the regular rates.

A conference was then held with the president, manager and some of the directors of the Winnipeg Industrial exhibition, and a policy of earnest co-operation agreed upon, so that all the essential requisites for making the first territorial exhibition a success, are now assured, and it remains for the people themselves to prove that they are able to establish the supremacy of the Northwest Territories, not only as a grain producing class, but as producers of horses, cattle, sheep, pigs, poultry, dairy products and roots and vegetables. Added to this, returns show that they will be able to establish

during the exhibition, the fares being very reasonable. During the Territorial exhibition, Professor Robertson and his assistants will deliver lectures upon dairy farming, and Mr. Gilbert upon poultry raising. Added to this, prizes will be offered for the best essays, not more than four foolscap pages in length, upon "Irrigation," "Copper destruction," "Dairy Products and Cheese Making," "Hog Raising and Bacon Curing," "How to Make the Farm Pay," with opinions upon the necessity of proper fallowing. These essays are to be in hand by the first of June and will be printed and read between the various addresses connected with farm yard subjects.

Five Governors from the western states have been invited to be the guests of His Honor the Lieutenant Governor, and this with the presence of His Excellency the Governor General will add greatly to the interest of the proceedings.

The First Suez Canal.
According to Herodotus, Pharaoh Ne-

WESTERN ONTARIO MINING.

Sales of Claims in the Seine River District.

Mr. Frank J. Apjohn, master of titles for the Lake of the Woods and Rainy River districts, arrived in Winnipeg recently from Rat Portage on a brief visit. He says that business generally within the limits of his jurisdiction keeps up a satisfactory average, and complaints of dull times are rarely heard. The activity in mining continues, and this branch of enterprise is fast growing in importance. The Sultanamine, which has been worked successfully for some time is to be operated on a large scale, and other properties are being opened up. Mr. Caldwell, proprietor of the Sultan, brought in a gold brick to Rat Portage the other week, weighing five pounds, the result of five weeks' clean up. The Regina is also turning out well. The great interest in the Seine River mining prospects seems to be increasing daily, and a good number of sales are being made. Two properties have changed hands lately—one for \$60,000 and the other for \$55,000 cash. These sales were made on surface prospects, a fact that bears out the reports of the exceeding richness of the mineral deposits there. Various other sales of individual interests have also been recorded of late.

LABOUCHERE'S CHARGE.

How the Notorious Rossa Got Money From the British Government.

Mr Labouchere's charge, that O'Donovan Rossa indirectly received money from the British government, while his now famous subscription list for dynamite and other incendiary purposes was raking in the dimes and dollars of the Irish race all over the United States, is corroborated by ex-Detective Patrick McIntyre, who knows all the secrets of the government and of the Irish prosecutions or persecutions. McIntyre writes: "I cannot say that I believe Rossa knowingly touched a penny that came from a source so detestable to him. But I do know, that the movement in which he had a hand in New York was subsidized to no small extent by cash that came through Red Jim McDermott and others who were in the employ of the British government. McDermott is now living in the South of France, and apparently enjoying all the luxuries that money will purchase."

THE DAIRY BUILDING.

fering with the judges in the various classes, preparing prize money so that exhibitors may not be detained, and performing all the functions required of a board of that kind.

The main building will be even larger than indicated in the illustration accompanying this sketch, as it has already been found from the number signifying their intention of exhibiting that the capacity will not be sufficient, and a large wing will therefore be added. In this connection we might say that Lieu-

their ability to compete with other provinces in the products of artizan labor.

We also publish an illustration of the dairy building, and in this connection might say that large prizes are being offered for butter and cheese; the general opinion being that the manufacture of these products should be encouraged in every possible way. The same may be said with regard to hogs and poultry. Lieutenant Governor Mackintosh having recently publicly expressed his opinion that if the Northwest Territories are to

cho, 450 years before the Christian era, commenced the construction of a canal branching out from the Nile and traversing the desert to the head of the gulf of Suez. When about half completed, and after the expenditure of an incredible amount of labor, the work was abandoned, owing to an oracle which the king had consulted warning him that if the enterprise was completed it would be for the benefit of his enemies, the barbarians, and probably entangle the nation in foreign complications.

Local and General

—The municipal seed grain has arrived and is ready for delivery to those requiring it.

—Services will be held in the Presbyterian church on Sunday, 21st inst., at 7 p.m.

—Dr. Size, dentist, was in town on Monday and Tuesday for the practice of his profession.

—Messrs. Scott & Johnston shipped a carload of splendid beef cattle east on Monday night.

—Mr. and Mrs. S. H. Caswell left on Tuesday to spend three weeks rusticiating at the lakes.

—Mr. W. H. Bell has imported half a carload of seed barley. Those requiring it will do well to call on Mr. Bell.

—Rev. Hunter Boyd left for Moose Jaw on Friday, to attend the Christian Endeavor convention, and returned Monday evening.

—Messrs. Scott & Johnston left for Touchwood last week on a cattle purchasing tour, and have met with considerable success.

—It is rumored, but lacks confirmation, that Mr. Davin has sold out the Leader to Mr. Walter Scott, of the Moose Jaw Times.

—Const. Diege after being stationed here for about a month was suddenly recalled to Regina, leaving by Pacific express on Tuesday morning.

—Good Friday and Easter passed off quietly. The usual services for the occasion were held in both the English and Roman Catholic churches.

—At a recent meeting of the Board of Trade, Sheffield, Eng., a vote was given in favor of Protection by twenty-six out of sixty members. Every one of those twenty-six is a Liberal.

—The shooting party composed of Messrs. Davidson, Beauchamp, MacCaul and Dickson, returned on Tuesday from the Qu'Appelle lakes having succeeded in bagging 250 ducks. Not so bad!

—There are several wells in town whose curbing barely reaches the top of the ground and which are left uncovered. The authorities should see to it and punish parties who neglect to cover the same.

—The Czar of Russia has ordered 5,000,000 rubles to be devoted to a fund for the relief of newspaper men and authors. If the Czar would give Russian journalists and authors liberty it would do them more good than his charity.

—Judging from the following, copied from a Port Elgin paper, it will soon be necessary for all applicants for the position of school teacher to be bachelors. A former school teacher of the township of Kinloss, but now of Manitoba, applied for a school at Moosomin, and received a letter from the secretary of the board to the effect that as he had not stated his sex, they were afraid to give him the school. The secretary further stated that the country was already overrun with

bachelors and they would engage none but a female lady teacher."

—As a result of the elections in the east yesterday, Montague's majority was 700 and Dobel's 7. Antigonish and Verches both went Liberal.

—If a word of advice is admissible, we would recommend those intending to purchase a spring outfit, to call and see what Mr. J. P. Beauchamp can do for them before purchasing elsewhere.

—The funerals of Mrs. Starr and Mr. J. Wilson took place on Friday last. The numbers attending each was significant of the appreciation in which the departed were held during their temporary sojourn in this vale of tears.

—We have just received a new price list from Jas. McMillan & Co. (Inc.), 209-212 First avenue north, Minneapolis, Minn., the largest hide and fur dealers in the Northwest, and it can be referred to at this office at any time.

—Mr. and Mrs. Travis of Elk-horn, parents of Mr. F. Travis, who is in charge of the C. P. R. station during Mr. Warner's absence, and a well known and obliging official, are at present on a visit to Mr. Broley, father of Mrs. Travis, Jr.

—The argument of our article in this issue on the relation of protection to liberalism, is strikingly confirmed by the fact that, in Australia, the Liberal party is the party of protection, and the Conservative party is the free trade party.

—Great dissatisfaction is expressed at the manner in which the seed grain is being distributed at Balgonie. It certainly does seem curious that parties having applied for ten bushels of seed should not get anything, the forty per cent reduction should certainly not have been applied to such a case.

—Monday night's Atlantic Express was graced with the presence of twelve convicts, who are being deported from Vancouver to Stonewall penitentiary. They were accommodated with a private car immediately following the engine and separated from the train proper by the express and postal cars. Judging from the way they were shackled, they must have been considered desperate characters.

COUNCIL MEETING.

Regular Meeting of the Municipal Council of South Qu'Appelle.

Minutes of a regular meeting of the Council, held in the Council Chamber, on Monday, the 1st day of April, 1895.

The reverend and councillors Webster, Raymond, Craig and J. F. Cates, were present. Minutes of last meeting read and adopted.

Several communications were read and referred to Council, and also the following accounts:

H. R. Henderson, writing address	\$ 2 50
A. Raymond, charity acct., Hotel John Tat, stonemason	1 50
Dan Cameron, stonemason	23 00
G. H. V. Bulyea, undertaker's acct.	14 00
G. H. V. Bulyea, flour, charity	6 50
Geo. Needham, digging grave	3 00
A. D. Dickson, conveying, etc.	3 00
G. H. V. Bulyea, adv'tg land sale, N.W.T. Gazette	5 95
S. H. Caswell, acct. for charity	3 00
F. G. Whitting, bal. col. salary, etc.	52 80
J. Doolittle, cash for wood	3 00
J. Doolittle, insp. salary and scrubbing hall	3 90
J. Doolittle, salary as clerk to date	12 00

All of which was referred to the Committee on F. A. and Safety.

The treasurer's report was read and referred to the Finance Committee.

The chairman of the Road and Bridge Committee reported favorably upon the dam between sections 22 and 23, tp. 21, rge. 16, which was stoned by Dan Cameron, and also the one stoned by John Tat, between sections 12 and 13, tp. 19, rge. 15, and recommended that their claims for said work be paid. Report referred to Committee on F. A. and S.

G. S. Davidson, J. H. Fraser and G. H. V. Bulyea and others addressed the council asking them to purchase a quantity of seed oats to assist certain needy farmers in seeding their prepared land, and it was unanimously agreed that two cars of seed oats be purchased for that purpose.

Webster—Cates—That Hugh Mackintosh be allowed the sum of \$15 for building a stone sluice in dam between sections 33 and 34, tp. 19, rge. 16, in a workmanlike manner, and to be approved by the chairman of the Road and Bridge Committee. Carried.

Webster—Raymond—That the committee from the Department of the Interior, re Immigration Building, be filed. Carried.

The Report of the Committee on Finance, Assessment and Safety was read and the

40 YEARS THE STANDARD.

several accounts mentioned therein recommended to be paid.

Cates—Raymond—That a loan of \$50 be granted to Starr's Point School District, No. 357, to be returned when sufficient of the 1895 levy has been collected. Carried.

Craig—Raymond—That the communication of H. Telford re license law for river and feed stables be laid over for future consideration, and that the clerk be instructed to procure a copy of such by-law if possible. Carried.

Webster—Cates—That this council cannot move in the matter of a loan to the Grassington School District without their first having obtained permission from the Lieutenant-Governor to issue debentures. Carried.

Cates—Craig—That the reverend, A. Raymond and A. Webster be appointed a committee to purchase two cars of seed oats, and to see that the same is distributed according to the instructions of the council, and that the reverend and clerk are hereby authorized to issue cheques for the necessary amount for the purchase of said grain and also to pay freight charges thereon. Carried.

Smith—Cates—That the committee appointed to manage the distribution of the municipal seed oats be instructed to give each farmer who is recommended by the councillor nearest whom he resides, not less than ten bushels or more than forty, for which the applicant is to sign a declaration and furnish an approved security for the payment of the price of said oats on the 1st day of December, 1895. Carried.

A by-law erecting road divisions, appointing Stewart Mitchell, Wm. Dixon, Arch. Matheson, Jr., and W. J. Craig, overseers, and amending by-laws 184 and 204 was put through its various stages, signed sealed and passed.

Council then adjourned.

A SAD ACCIDENT.

Mr. Warner's Youngest Child Drowned in a Reservoir.

Just before going to press a message was brought to us to the effect that Mr. E. W. Warner's youngest child was drowned. It appears that several children were playing in the neighborhood of the dam at the corner of the Town Hall, and by some means or other, which we have not as yet been able to ascertain, the child fell into the water. Mrs. Fyffe's servant girl happened to see it while in the water and succeeded in getting it out. How long it was in the water is only conjecture, but it could not have been very long as when taken out and brought into Mr. R. Johnston's the child still breathed. Dr. Henderson was soon in attendance, and with willing help did everything possible to resuscitate the child but without avail. The child was, as near as we can at present learn, about two years old. Mr. and Mrs. Warner, will, we are sure, have the sympathy of the community, in this their sad loss, which will be more keenly felt owing to the fact that Mr. Warner is at present absent in New York State, where he was summoned about ten days ago to the bedside of his sick father, who has since died, and we believe was to be buried to-day (Wednesday). Mr. Warner's absence will make the bereavement harder to bear for the poor mother.

INDIAN HEAD ITEMS.

A Few Local and Personal Paragraphs From Our Neighbor Down the Line.

Thomas Butterworth leaves for England shortly.

Mrs. McCallagh, Miss Harvey and Rev. McCullagh, delegates to the Christian Endeavor convention at Moose Jaw, returned Tuesday night.

Miss Mary Crawford spent Easter with Mr. Robert Crawford, returning to Regina Tuesday.

Rev. Dobie, English church incumbent, will occupy the cottage residence of W. Anderson, on their arrival at the commencement of May. Mr. Anderson returns to the farm.

R. Williams, teacher, Wide Awake, who spent his vacation in Regina, rang roars at the Easter services held in St. Luke's on Easter Sunday.

Funeral services were held in the cemetery over the remains of Josephine, infant daughter of Andrew Parker, on Friday.

Catarth Relieved in 10 to 60 Minutes.

One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarth Powder, dissolves the mucus over the surface of the nasal passages. Pain less and delightful to use, it relieves instantly and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 10 cents. At C. E. Carleton's.

By-Law No. 2, 1895

MUNICIPALITY OF INDIAN HEAD.

WHEREAS it is deemed necessary to define the duties of Road Overseers, appointed from time to time by the Council of the Municipality of Indian Head, be it therefore enacted:

1. It shall be the duty of the road overseer, so soon thereafter as convenient, having received from the clerk of the municipality a list of the parties liable for the performance of statute labor, to notify and require them respectively to meet him at a certain time and place to perform the labor imposed upon them by the council.

2. On or before the first day of August in each year the road overseer shall return to the clerk of the municipality the list received by him, on which shall be the name of each party on said list, in the column reserved therefor, shall state if the statute labor mentioned therein has been performed or not performed by such party.

3. The said list shall be accompanied by the road overseer, in the form following:

1. (A.B.) overseer of road division No. (), in the Municipality of Indian Head, make oath and say: That the statement set opposite the name of each party on the above (or annexed) list, as to the performance or non-performance of the statute labor therein mentioned is true.

4. If the road overseer refuses or neglects to perform any duty required of him by this by-law, he shall on conviction, be fined in a sum not exceeding twenty dollars and costs of prosecution.

5. That all by-laws or parts thereof conflicting with the above be and are hereby repealed.

Passed this 30th day of March, 1895.

WILLIAM DICKSON, Reeve.

GEO. THOMPSON, Clerk.

By-Law No. 3, 1895

A By-Law passed by the Municipality of Indian Head in pursuance of Ordinance No. 36, of 1892.

THE COUNCIL of the Municipality of Indian Head enacts as follows:

1. Ordinance No. 36, of 1892, is hereby extended to the following Noxious Weeds: French or Stink Weed, Canada Thistle, Thistle Weed or Hedge Mustard, Common Mustard, Wild Oats or Russian Thistle.

2. That R. C. Sanderson, of 10-12-12 west of second meridian, shall be an inspector to enforce the provisions of the said ordinance in the said municipality. The said inspector shall hold office during the pleasure of the council.

3. That the remuneration of the said inspector shall be two dollars a day actually engaged in enforcing the provisions of said ordinance in said municipality, and five cents per mile for every mile necessarily traveled in the performance of such duties.

4. That it shall be the duty of the inspector to give the notice referred to in Section 4 of the said ordinance, for the first time not later than the first day of July in each year.

5. That all by-laws or parts thereof conflicting with the above be and are hereby repealed.

Passed the 30th day of March, 1895.

WILLIAM DICKSON, Reeve.

GEO. THOMPSON, Clerk.

PROCLAMATION.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, etc., etc., etc.

Whereas by Ordinance No. 3 of 1892 entitled "An Ordinance to Encourage the Planting of Trees," it is enacted that the Lieutenant-Governor-in-Council may in each year by proclamation appoint a public holiday to be observed throughout the Territories for the planting of Forest and other Trees.

Now Know Ye that, by and with the advice of the Executive Committee of the Territory, I, as the authority vested in us as aforesaid, do hereby appoint FRIDAY, the THIRD day of MAY, next, a Public Holiday, to be observed throughout the Territories as "ARBOR DAY," and by these presents do earnestly invite the inhabitants of the said Territories to devote the above mentioned day to the planting of trees, and request all Municipal, Religious and School Corporations to bravely co-operate for the success of an object which cannot fail to prove of vital importance to the Territories.

Of which all persons whom these presents may concern are hereby required to take notice and govern themselves accordingly. In TESTIMONY WHEREOF, We have caused the Seal of the Northwest Territories to be hereunto affixed. Witness, His Honor Charles Herbert Mackintosh, Lieutenant-Governor of the Northwest Territories, at Government House, Regina, this 11th day of April, in the year of Our Lord one thousand eight hundred and ninety-five and in the fifty-eighth year of Her Majesty's reign.

By Command, R. B. GORDON, Secretary.
